

NEW OFFENSIVE PRESS:

$$\text{"Tan(Arcsin } \frac{3}{5} \text{)"}$$

(we call it kite)

↳ it kind of looks like a kite.

steps

- ① let opponent pass the ball in.
- ② ① guides the opponent with the ball down the side line.
- ③ Either ③ or ④ helps ① trap the other teams dribbler.
- ④ Everyone else try to play smart and intercept the ball.

Mr. Chao:

I hope you like this card. The theme is PURPLE, even though it is not the seasonal color, I thought it would be a nice way to remind you to maybe, possibly print our next exam on purple paper !!.

I drew our basketball play (the one I'm always talking about) out for you, so next time if you watch our game, you can see it in action!

This year I have learned sooooo much in math. More than all of the previous years of math in school, combined! I absolutely love HL Math and I'm sooooo glad you and Ms. Bailey convinced me to take it. It changed my life. I even enjoy waking up extra early in the morning to study math!

Thank you for everything this year! You've really shown me a different way of looking at math! like graphing to solve an equation instead of doing LOTS of algebra. This year so far has been great and I can't wait for the next year and a half. (Especially when we beat Y2 HL again in ASMA). See you next year!
